Angle Hunt. Have an angle hunt in your house or in your garden. Find at least two of each angle.

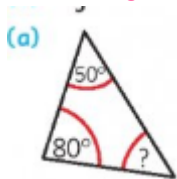

Degrees is the measurement in which we measure angles.

#### Tips\*

Remember that all of the angles in a triangle add up to 180 degrees.

All of the angles in a quadrilateral (a four sided shape) add up to 360 degrees.

Calculating a missing angle in a triangle:

Add up the angles you know first:

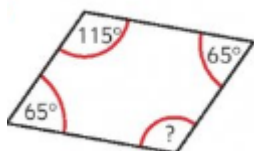

$$50^\circ + 80^\circ = 130^\circ$$

Take your answer away from 180°

$$180^\circ - 130^\circ = 50^\circ$$

$$\text{Answer} = 50^\circ$$

Calculating a missing angle in a quadrilateral:

Add up the angles you know first:

$$115^\circ + 65^\circ + 65^\circ = 245^\circ$$

Take your answer away from 360°

$$360^\circ - 245^\circ = 115^\circ$$

$$\text{Answer} = 115^\circ$$

Gaeilge:

- Cárta Poist – fill in the blanks
- An Samhradh word mat – Put the next ten words into sentences.

\*Tips

Keep the sentences simple. Use your verb sheet in your Irish grammar copy to help you start your sentences.

Art:

- Get creative summer art -

Create some summer art by using a mixture of materials (You could use paints, marker, pencils, shells, grass or pasta like in the example). You choose what you would like to use and be as creative as you can.

Music: The Orchestra – The Woodwind Family

Listen to the instruments in the woodwind family and complete the activity sheet to accompany the lesson. You can listen here on: [https://www.youtube.com/watch?v=6JG44ZH\\_RnQ](https://www.youtube.com/watch?v=6JG44ZH_RnQ)
